Education

Columbia University, *Master's in Data Science*

August 2026 - Dec 2027

University of Rochester, *Bachelor in Information Systems & Economics*

August 2019 - May 2023

Minor in Computer Science

- **GPA:** 3.8/4.0
- **Relevant Coursework:** Econometrics, Predictive Analysis, Database System, Advanced Algorithms

Consulting, Finance & Analytics Experience

Shopee, *Product Operations and Analytics Associate*

June 2025 - May 2026

- Engineered automated data pipelines to consolidate sales and P&L data across multiple sources.
- Reduced manual processing time by 20%, improving operational efficiency and recurring performance analysis.
- Analyzed seller behavior and campaign performance to inform promotional strategy, contributing to 25% YoY growth through data-driven regional decisions.
- Oversaw service delivery across a regional team of 10+ personnel and BPO partners, coordinating workflows and monitoring operational performance.

Boston Consulting Group (BCG), *Consultant*

Jan - June 2025

- Supported the go-to-market strategy for a US\$10B real estate project.
- Analyzed customer and survey data to inform product positioning, launch priorities, and feature decisions.
- Built pricing and market analysis models to estimate pricing premiums, evaluate market opportunities, and support commercial recommendations.

Peloton, *Business Operations Analyst II*

Dec - June 2024

- Conducted spend analysis across software procurement to identify cost-saving and commercial opportunities.
- Identified initiatives that delivered \$800K in annual savings and generated \$2M in additional revenue opportunities.
- Built BI dashboards and analytical reports that helped business unit leaders identify \$10M in potential savings.

Samsung Electronics Americas, *Supply Chain Data Ops Analyst*

May - Dec 2023

- Managed procurement operations across 100+ material supply chains.
- Automated purchase-order tracking and reporting workflows supporting recurring procurement operations.
- Improved analyst productivity by 10% through Excel reporting optimization and automated data-processing workflows.

Additional Analytical Experience

Vietnam National University, *Research Assistant*

May 2026 - Present

- Implemented and fine-tuned geospatial deep learning models using PyTorch.
- Benchmarked model performance on Vietnam-scale geospatial datasets against existing baselines.
- Integrated a Geospatial Random Forest model and built Python workflows for feature engineering, training, and evaluation.

Selected Real Estate Analytics Project

Housing Prices Competition, *Kaggle Competition*

Rank 403/5425 (Top 8%)

- Built an end-to-end predictive modeling workflow for housing prices, covering data cleaning, feature selection, model training, and batch prediction.
- Designed a reusable preprocessing pipeline that handles missing values and categorical variables consistently across training and inference.

Finance & Strategy Skills

Analysis: P&L analysis, pricing analysis, market analysis, spend analysis, procurement analytics

Tools: Excel, SQL, Python, pandas, Looker, BigQuery, SAP, Coupa
